Limited Modular approval. Output power listed is conducted. This grant is valid only when the
module is sold to OEM or OEM integrators. This transmitter use as a module in mobile-only
RF exposure conditions. Only those antenna(s) tested with the device or similar antenna(s)
with equal or lesser gain maybe used with this transmitter. The antenna(s) used for this
transmitter must be installed to provide a separation distance of at least 20 cm from all
persons. Co-location of this module with other transmitters that operate simultaneously is
required to be evaluated using the FCC multi-transmitter procedures. Compliance of this
device in all final host configurations is the responsibility of the Grantee. End-users must be
provided with specific information required to satisfy RF exposure compliance for the final host
device. Installation of this device into portable RF Exposure category host devices requires
the submission of a Class II permissive change or new application. This device supports 20
MHz and 40 MHz bandwidth modes.
